DETAILED ACTION

Claim Objections

1. Claims 1-7 are objected to because of the following informalities: Claim 1 is not in one-sentence form, see line 5. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Van Riet et al. (US 6,588,773 B1).

Van Riet et al. discloses a snowboard binding comprising a shell 47 having axle 45 ensleeved on plate 40 with resilient torsion spring 63, upper disc 52 for connection to base 12 and lower disc with circular notched ring and oblong holes (not numbered) for engaging a second circular notched ring, as shown in figures 1-9.
